

**SPIRIT OF SUTTERBY**

**BOUNDARY PROJECT**

# **LANGTONWITH SUTTERBY BOUNDARY PROJECT**

**This work is part of the CBA East  
Midlands Boundaries Project.**

**The aim of the project is to map the parish  
boundary and identify features of interest, such  
as hedges, ditches, banks, trees and roads.**

**The results will be added to a database that will  
build up over time and will eventually cover the  
whole of the East Midlands. The first part of the  
project will be to survey the features of the  
boundary and enter them on the database.**

**The second part will be data manipulation to give  
graphic illustrations of the results.**

**The Sutterby Bounders are working in teams of four.**

**They are recording the altitude and grid reference at suitable points along the boundary.**

**Trees and plants are identified and the nature of the boundary noted.**

**Most of the old Sutterby boundary has been surveyed and the teams will soon move on to the Langton boundary.**

**The following pictures were taken during the survey of Sutterby Parish Boundary.**

**Day one started on the northern boundary which runs along the centre of the road between Brinkhill and Sutterby.**

**A white-board was used to record details as filling out paper forms in the wind proved to be quite difficult.**

A person wearing a blue jacket is holding a blue sign with a white border that reads "DAY ONE". The person is standing in a grassy area with some small white flowers. In the background, there is a large yellow field, a gravel path, and a line of trees. The sky is blue with white clouds. A green sign with white text is visible in the upper right corner, partially obscured by trees.

DAY  
ONE

**Although the boundary runs along the road, pictures were taken facing N, S, E, & W at suitable points.**

**The previous picture was taken at the junction of the road and the footpath to Brinkhill.**

**The following picture is of a plashed hedge alongside the road.**

Here, the white-board is in use,  
identifying a point along the road  
by position, number and altitude.

A person wearing a blue jacket is holding a blue sign with a white border that reads "DAY TWO". The person is standing in a grassy area with some small white flowers. In the background, there is a large yellow field, a gravel path, and a line of trees. The sky is blue with white clouds. A green sign with white text is visible in the upper right corner, partially obscured by trees.

DAY  
TWO

**The western boundary was surveyed  
on day two.**

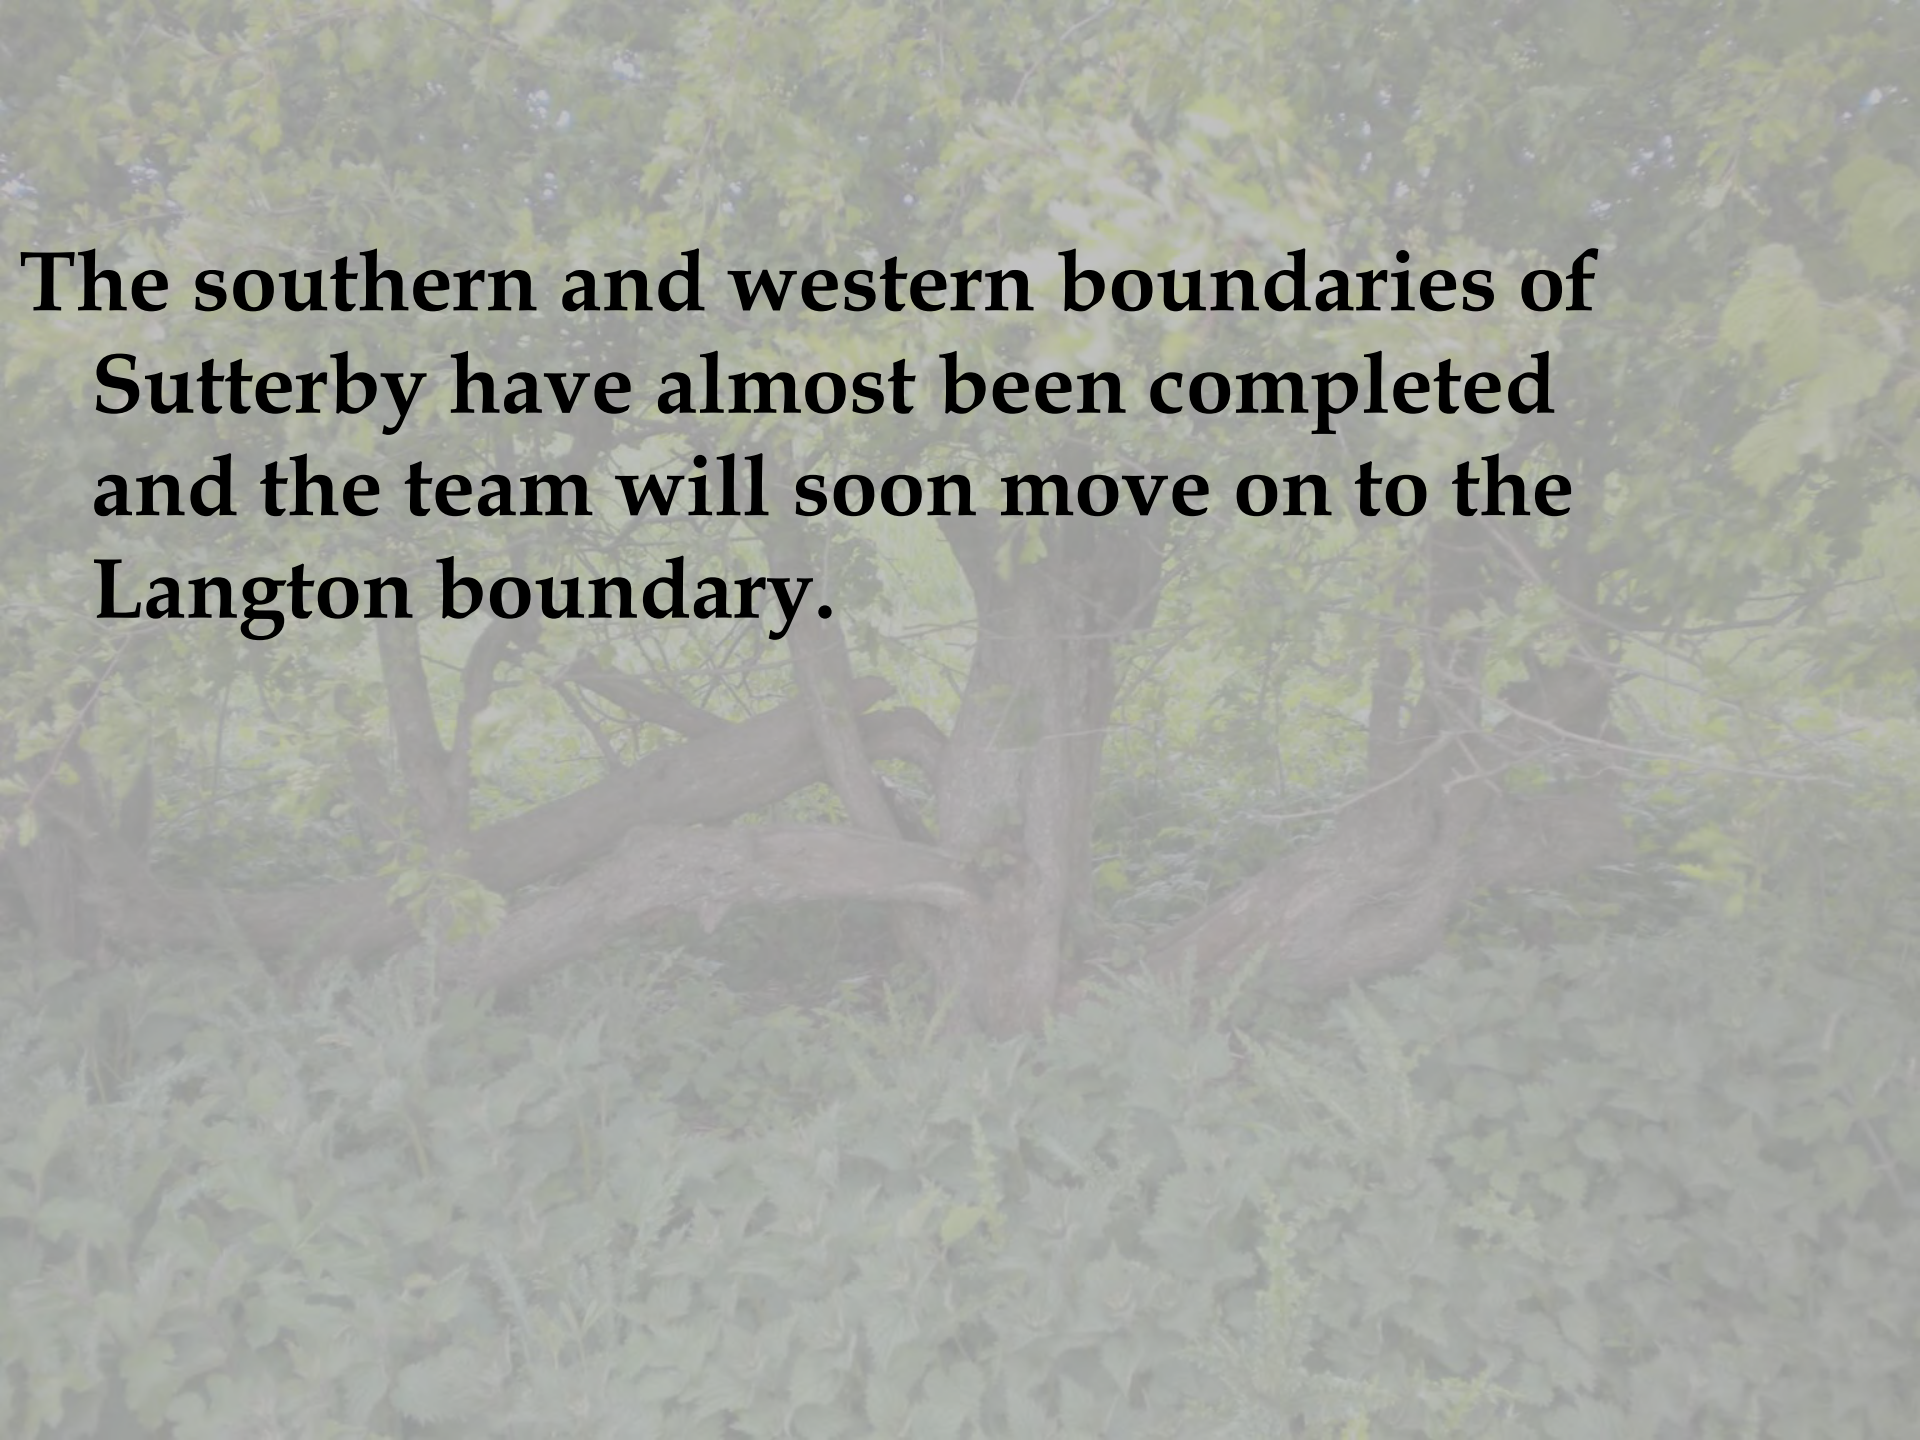

**It is clearly defined by a hedge.**

**This boundary is quite beautiful with  
mature trees and old hawthorn  
hedging, as the following pictures  
show.**

**The southern and western boundaries of Sutterby have almost been completed and the team will soon move on to the Langton boundary.**
